DCE090ZX1

36V(18Vx2) LXT BRUSHLESS 9" POWER CUTTER, TOOL ONLY

- 3-1/2" depth of cut, Active Feedback Technology (AFT), soft start, electric brake
- Brushless (BL) DC motor with high power to weight and size ratio generates less heat buildup and is ideal for heavy-duty applications
- Active Feedback Sensing Technology (AFT) automatically shuts down the tool if there is a sudden drop in rotation speed (e.g. kick-back)
- LED job light illuminates cutting area
- Soft start feature gradually increases speed to eliminate start up shock
- Electronic current limiter prevents motor burnout caused by overloading
- Electric brake stops blade 2-4 seconds after the trigger is released for increased operator safety
- eXtreme Protection Technology (XPT) offers maximum protection against dust, debris and liquids for optimal performance in extreme conditions

HM001GZ

40Vmax XGT BRUSHLESS 13 LBS DEMOLITION HAMMER SDS-MAX w/AWS, TOOL ONLY

- SDS-MAX shank, variable speed, constant speed control, soft start, LED job light
- Brushless DC motor generates less heat buildup and is ideal for prolonged use in manufacturing / production applications
- AWS (Auto-Start Wireless System) uses Bluetooth technology to communicate between tool and vacuum and enable wireless control when used with Makita AWS cordless tools
- Anti-Vibration Technology (AVT) actively counteracts vibration of tool for greatly reduced transmission to operator
- eXtreme Protection Technology (XPT) offers maximum protection against dust, debris and liquids for optimal performance in extreme conditions
- Constant speed control maintains constant speed under heavy load
- Soft start feature gradually increases speed to eliminate start up shock
- 5-stage variable speed dial and variable speed trigger allow operator to adjust speed based on materials or application

CONNECTX™

ConnectX 1-11/16" x 4.9 FT CONCRETE VIBRATOR, TOOL ONLY

- Powered by 36V power system using the Makita PDC01 or PDC1200A02 Portable Power Pack
- ConnectX is engineered for extended, non-stop operation while maintaining an impressively lightweight tool body
- Boasts an extraordinary runtime of up to 300 minutes with the PDC1200A02 power pack
- Our high-efficiency motor concrete vibrators integrate motors into the head, ensuring minimal maintenance and uninterrupted vibration efficiency
- Ideal for any project, these vibrators maintain consistent and stable vibrations throughout their entire length, surpassing standard models
- The remarkable PDC1200A02, a portable power pack designed to redistribute battery weight from the tool body to the back of the harness, reducing operating fatigue
- Meticulously crafted to drastically minimize vibration transmission to the operator while mitigating the toll of prolonged vibration exposure
- Conquer concrete challenges with finesse using the expansive vibrator section of our VR models, delivering 12,000VPM
- Upgrade from traditional gas equipment to achieve top performance, lower noise, minimal maintenance, and zero emissions
- Engineered and built as durable machinery to outlast traditional vibrators on the market. Backed by a 3-year warranty for added assurance
- Ideal for vibrating floors, pillars, foundations, columns, walls, walkways, and more

DLS112Z

36V

36V(18Vx2) LXT BRUSHLESS 10" SLIDE COMPOUND MITRE SAW, TOOL ONLY

- Incorporates Makita's Deep and Exact Cutting Technology (DXT) up to 12" cuts in 2x material, 6-5/8" nested crown moulding and 5-1/4" vertical baseboard
- Automatic torque Drive Technology (ADT) feature adjusts the torque and speed according to the load condition, enabling rapid movement between high speed and high torque applications
- Rail forward design enables saw to be placed against wall to maximize effective workspace
- 3 stage gear reduction system greatly increases capacity when cutting vertical baseboard or nested crown molding
- 1-3/16" guide rail diameter provides increased stability and cutting precision
- Integrated guide fence and lower fence increases rigidity and support of materials
- Fence design allows fence to be secured to holders to prevent damage and/or loss
- Front bevel knob enables easy adjustment without reaching for operator convenience and precise setting of bevel angle

40Vmax XGT BRUSHLESS 7" POLISHER, 5.0Ah x1KIT

- Variable speed, soft start, constant speed control, anti-restart
- Brushless DC motor with high power to weight ratio generates less heat buildup and is ideal for prolonged use in manufacturing/production applications
- eXtreme Protection Technology (XPT) offers maximum protection against dust, debris and liquids for optimal performance in extreme conditions
- Battery positioned to prevent impact or damage to materials and protected by elastomer bumpers
- Electric brake stops polishing pad 3-5 seconds after trigger is released for increased operator safety
- Constant speed control maintains consistent speed under heavy load
- Anti-restart features prevents accidental startup of tool during battery changing when switch is locked in the on position
- Soft start feature gradually increases speed to eliminate start up shock
- Lock-on enables easy continuous operation with reduced operator strain and fatigue
- Lock-off button prevents accidental start up
- Integrated dust screens act as additional protection against dust, dirt and debris
